**Late revision: 6/23/2021. For important dates, please consult the Academic Calendar via the following link:**<https://www.kean.edu/offices/registrars-office/academic-calendar>

**Content:** This course focuses on the methods to automatically transform data into a visual context in different formats – charts, graphs, dashboards and dynamic web pages. Students will study how to design, develop the effective and interactive visualization tools to analyze the data from files, database, and various data sources as well as learn how to use popular visualization software.

**Course Student Learning Outcomes: Upon completion of this course, the student will be able to:**

- A. Explain the key techniques and theory used in visualization, including data models, graphical perception and techniques for visual encoding and interaction.
- B. Present information in an understandable, effective, and aesthetic manner, for the purposes of explaining ideas and analyzing data.
- C. Analyze, evaluate and automate information visualizations and other forms of visual presentation.
- D. Utilize popular visualization API and software.
- E. Design and develop interactive web pages and tools that allows user to visualize and interact with data from the database.

- **All work turned in under your name must be your own.** **No credit will be given for an assignment or homework that is copied – in part or in total – from another person.**
- **Exam policy:** During class examinations, if a student leaves the classroom for any reason during the exam time, **the exam must be turned in before the student departs, concluding the exam for that student.** The student cannot resume the exam on return later. You may not make or take a phone call, text or access the internet during class or a test.
- **Classes may not be audio or digitally captured**, unless permission has been granted by the instructor for that specific class.

**For remote learning only - Class Recordings (Live Sessions/Collaborate)**

In this class software may be used to record live class discussions. As a student in this class, your participation in live class discussions will be recorded. These recordings will be made available only to students enrolled in the class, to assist those who cannot attend the live session or to serve as a resource for those who would like to review content that was presented. All recordings will become unavailable to students in the class when the course is closed.

Students are not permitted to record (or download) the course experience. If a recording of the course is required for accommodation purposes students must make those arrangements with the Office of Accessibility Services. Students found to have recorded (or downloaded) course experiences without authorization are subject to review by the Office of Student Conduct and Community Standards.

**Privacy Statement**

Assuring privacy among faculty and students engaged in online instructional activities helps promote open and robust conversations and mitigates concerns that comments made within the context of the class will be shared beyond the classroom. As such, recordings of instructional activities occurring in online classes may be used solely for internal class purposes by the faculty member and students registered for the course, and only during the period in which the course is offered.
