- **Content**: Enterprise database management systems; database design; database implementation; storage and indexing; transaction processing concepts; data warehousing, data mining and online analytical processing (OLAP); emerging database applications.
- **Textbook**: **Fundamentals of Database Systems** (**7th Edition**), by Elmasri, R. and Navathe, S., *Pearson*, 2015. ISBN-13: 9780133970777
- **Objectives**: Upon completion of this course, students will be able to:
 - A. Evaluate the role of databases in enterprise information systems
 - B. Design and build applications using database management systems
 - C. Compare and evaluate diverse database models
 - D. Demonstrate an understanding of the role of a database in data mining and OLAP
 - E. Understand transaction processing concepts
 - F. Understand the emerging database applications
- Course grading: 2 Midterms (25%, 25%), Final Exam (25%), 2 Homework (5%, 5%), and 2 projects (5%, 10%)

Class Policies:

- This is a hands-on course. Students are required to bring personal laptop every class.
- Instructional Methods: lecture with slides, student presentations, class discussions and exercises, and project creations.
- **A**: 100-94, **A**-: 93-89, **B**+: 88-84, **B**: 83-80, **B**-: 79-76, **C**+: 75-72, **C**: 71-68, **D**: 67-64, below 64 is (a B- or better is needed for CIS Graduate program.)
- It is students' responsibilities to verify all the scores posted on the class website that is announced on the first day of the class.
- Assignments should be used MySQL connecting through a Linux server that is announced on the first day of the class.
- Mid-Term Progress information will be provided to students by the instructor via KeanWise.
- No late work will be accepted without permission in advance from the instructor. Late work is penalized.
- No make-up exams are provided without documentation of medical or family emergency. Please arrange your schedule for the next 16 weeks to arrive in class on time and prepared.
- Attendance and participation are required.
- All work turned in under your name must be your own. No credit will be given for an assignment or homework that is copied in part or in total from another person.
- Exam policy: During class examinations, if a student leaves the classroom for any reason during the exam time, the exam must be turned in before the student departs, concluding the exam for that student. The student cannot resume the exam on return later. You may not make or take a phone call, text or access the internet during class or a test.
- Classes may not be audio or digitally captured, unless permission has been granted by the instructor for that specific class.
- Public posting of course materials from this class is prohibited. Materials presented in the classroom are for the personal use of registered students during the semester only. Homework, programs, and other classwork should not be shared, distributed or publicized in any way, for the protection of other students and in respect of the intellectual property rights of the faculty and copyright owners.
